Career Objective

Computer Science & Engineering student with hands-on experience in developing responsive web applications using **HTML**, **CSS**, **JavaScript**, **React.js**, **Node.js**, **Express.js**, **MongoDB**, and **MySQL**. Passionate about building user-friendly interfaces and database-driven applications through collaborative software development. Eager to contribute technical skills while learning modern web technologies in a professional environment.

Education

2023 - Present | Bachelor of Science (B.Sc.) in Computer Science and Engineering

American International University - Bangladesh

2022 - 2023 | Higher Secondary Certificate

Bandarban Cantonment Public School & College

2019 - 2021 | Secondary School Certificate

Bandarban Cantonment Public School & College

Experience

2024 – Present | Web Development Team Lead | Computer Club, AIUB

- Working with other members on the club's web development projects
- Learning Git, team collaboration
- Testing and improving project features

2026 | Research Publication | Bangladesh Physical Society

- Collaborated with co-author throughout the research process
- Led the research, writing of the paper

Skills

Frontend Development: HTML5, CSS3, Tailwind CSS, JavaScript, PHP, Laravel, Wordpress

Backend: Node.js, Express.js

Database : MongoDB, MySQL

Tools & Platforms : Git, Github, Vs Code, Postman

Projects

Bachelor Meal Management System

- Developed a web application to manage daily meals, expenses, and member records for a bachelor house.
- Implemented meal tracking, cost calculation, attendance management, and monthly expense summaries using **Node.js**, **Express**

AIUB Notice Bot

- Built an automated bot that fetches the latest AIUB notices and delivers updates to users in real time.
- Implemented scheduled notice checking, web scraping/API integration, and notification delivery to reduce manual monitoring.

Café Management System

- Developed a café management system for handling orders, menu items, billing, and customer records.
- Implemented inventory management, sales tracking, and order processing with a user-friendly web interface.

3Dify – Friends E-commerce Website

- Built a full-stack e-commerce platform for buying and selling 3D-printed products and custom designs.
- Implemented product listings, shopping cart, user authentication, order management, and responsive frontend

Certifications

- **Code to Cloud: Practical DevOps with AWS**
Cloudly Infotech Limited - 2026
- **IT Essentials**
Cisco Networking Academy – 2025
- **From Idea to Paper : A Guided Research Writing Workshop**
AIUB Research and Development Club – 2025
- **Science Fair**
Science Club, Bandarban Cantontment Public School & College - 2022

Extracurricular Activities

2023 – Present | Member | Computer Club, AIUB

- Participating in technical workshops and programming activities
- Collaborating with members on software development projects

2018 – 2021 | Bassist | Six Souls

- Performed at school,college cultural programs
- Played at local band fest and competitions
- Received awards for group perfomances

Interests & Hobbies

- Travel & Cultural Exploration
- Biking
- Music (Listening & Playing)
